# Kyoho Grapes

## ● What is Kyoho?

Kyoho grapes, botanically a member of the Vitaceae family, were originally developed in Japan in 1945. Each berry averaging 10 to 15 grams large, Kyoho grapes are considered the **King of Grapes**. It has low acidity, strong sweetness, and are juicy, which makes it popular.

## ● Kyoho Nutrition Facts

### Glucose, resveratrol, anthocyanins

Glucose contained in Kyoho is the only substance that the brain can use as energy, and it is said that it can be expected to have the effect **of activating the work of the brain and increasing concentration**. However, it cannot be stored much in the body and should be **taken in moderation from the daily diet**. Insufficiency may cause loss of concentration and physical strength. Also, Kyoho contains resveratrol, which is a type of polyphenol, and the skin and seeds of Kyoho are said to contain anthocyanins, which are said to be good for the eyes.

# How to make a colorful Kyoho & honey drink 🎵
