～ Royal Jelly ～

Thank you for your continued support for Sugi Bee Garden.

This News Letter will be regularly sent out with product information and customer feedbacks of Sugi Bee Garden.

I hope you find it useful.

About Royal Jelly

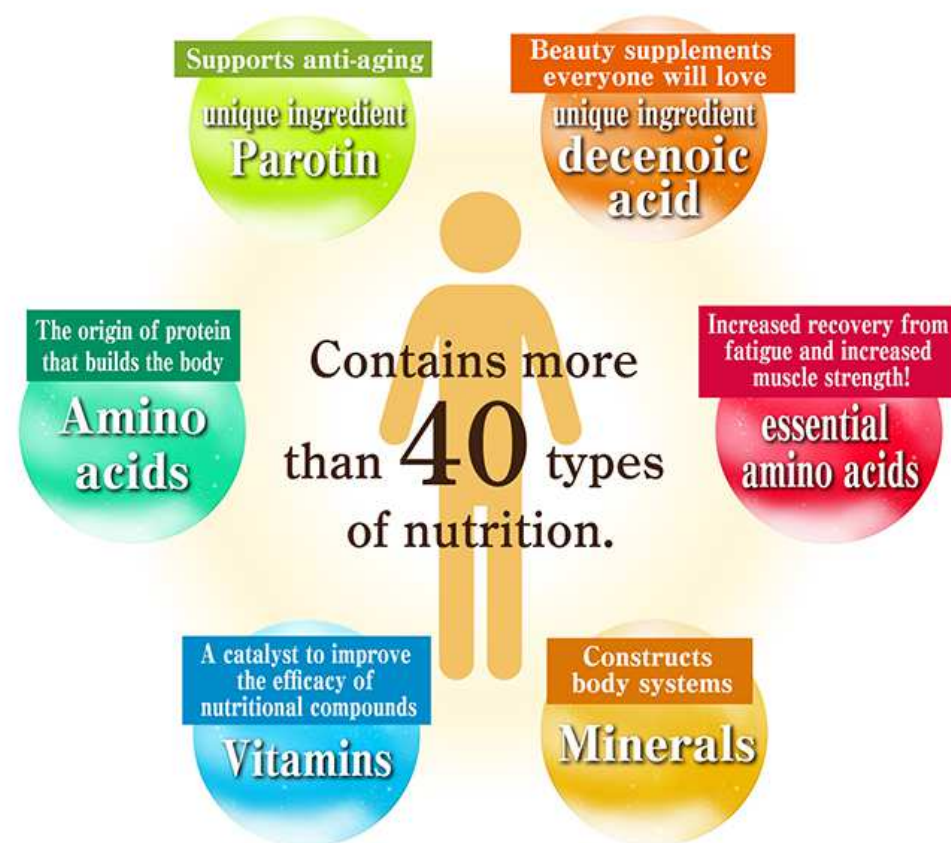

Royal jelly, a special food given only to the queen bee, is considered a nutritional treasure trove amongst many health foods.

The amazing vitality of the queen bee which grows up with royal jelly!

Both worker bees and queen bees originally come from the same larvae, but they become so different just because of what they eat

Royal jelly is a white milky liquid secreted from the pharyngeal glands of young worker bees, processed from the honey and pollen that they eat. It is **the only nutrition source that the queen bee**—which continuously lays around 1,500–3,000 eggs every day—gets and contains many nutritional components like essential **amino acids**, **vitamins**, and **the unique decenoic acid**.

To make use of the power of royal jelly,
we are conducting joint research with Kumamoto University.

Based on our 76 years of beekeeping experience, we have been using royal jelly, which supports the amazing vitality of the queen bee, to help our customers improve their health.

In September last year, Kumamoto University announced that its joint research with the Kumamoto University Faculty of Medicine had come to fruition and that it expected to use royal jelly to prevent arteriosclerosis as a result of its research on "Investigation of the effect of royal jelly on vascular endothelial function improvement".

Now that it has become clear that royal jelly as a food contributes to people's health, Sugi Bee Garden will continue to pioneer new paths to health through food, a gift of nature, and hope to support as many customers as possible in their healthy lives through our products and health information.

Product Lineup

Royal Jelly Gold (Tablets)

We use high quality raw royal jelly that has been vacuum freeze-dried into powder form without compromising its ingredients. A dietary supplement processed into easy-to-swallow sugar-coated tablets.

Royal Jelly Drink Gold 1000

A convenient dietary supplement containing 1000 mg of royal jelly and fortified with B vitamins. The drink provides a quick energy charge. One bottle a day for health care.
